

# AEROFEEL®

## FOR ALL BATHTUBS

Our perimeter air injection system is simply the best on the market. Aerofeel rides the wellness wave with individual quiet airjets and check valves providing immaculate purity. Intelligently positioned around the interior wall and in the tub's backrest, tiny openings create a gentle rippling massage, caressing your skin and cradling your body from head to toe. And to complete this therapeutic heaven, Aerofeel also includes an oval-shaped heated backrest—imagine a warm sensation across your shoulders and neck. Centre each of your senses through delightful relaxation and wellness.

### FEATURES AND BENEFITS OF AEROFEEL

|          |   |
|----------|---|
| <b>A</b> | 36-59 perimeter quiet airjets with check valves intelligently positioned to provide a gentle rippling, caressing massage  |
| <b>B</b> | Pre-warmed air pushed through an FDA (Food and Drug Administration) tube bringing you the most hygienic system on the market  |
| <b>C</b> | Oval-shaped heated backrest providing you a warm sensation across your shoulders and neck<br>5-6 airjets in the back  |
| <b>D</b> | Drying cycle starts automatically 20 minutes after each bath session whether you use the system or not  |
| <b>E</b> | Retro-lit digital control with electronic timer and multi-speeds, water detector safety block, temperature detector and 2-3 memory settings for personalized massage action |
| <b>F</b> | Gentle, cradling massage for total body experience and up to 35% quieter than competitive systems   |

### A Retro-Lit Digital Control:

- A display screen that provides information such as water temperature, the remaining massage time, the water level and a control for the various therapies.
- A therapy memory function with up to three memory keys that allow you to set your preferences for your next baths
- Control of massage time
- Control of massage intensity

### COMBINED SYSTEMS

- Hydrofeel/Aerofeel on Urban, Optik, Aiiki and Aigo series
- Hydromax/Aerofeel

Roll the benefits of both systems into a single one at the same time, drawing on both the power of water and the mildness of air to give you all the therapeutic benefits any bath could ever provide. The best of both worlds.

# HOW AEROFEEEL WORKS

## FOR ALL BATHTUBS

Perimeter air system by MAAX: **Technology. Hygiene. Purity.** MAAX perimeter air system incorporates the most hygienic and quietest design on the market by far, relying on three key components developed by our engineers to ensure a most exhilarating experience of wellness.

### FEATURES AND BENEFITS OF PERIMETER AIR TECHNOLOGY

#### 1. Advanced check valve technology

The quiet air injectors used in our perimeter air system feature a check valve system to ensure water does not flow back into the system. When air is pushed through the airjets, the valve is opened, and a relaxing ripple effect is created in the tub. When the air blower shuts off, the valve activates, preventing backflow of water and keeping the system dry.

Soothing oils and even exotic mud bath preparations can enhance your daily massage session.

#### 2. Automated drying cycle

The system's automatic drying cycle activates 20 minutes after each bath session (whether the system is used or not), purging any water droplets that may be left on the outside of the air injectors, limiting deposits.

The reliable technology behind MAAX systems ensures that you enjoy a hygienic, gentle and relaxing massage.

#### 3. FDA-approved feeding tube

Non-porous, waterproof piping is used to distribute air to the injectors. Compliant with strict U.S. Food and Drug Administration standards, the pipe material guarantees an immaculate interior environment that prevents bacteria from lodging in any porous walls.

All this means that both the safety of your system and your massage experience can be summed up in one word: perfect!
